OBJECTIVE

"Innovative software engineer with 3 years experience in programming, basic tech and IT skills. Skilled in front-end technologies such as HTML, CSS, TypeScript, React JS and more. Experienced in creating interactive websites and applications with proven ability to use modern technologies to create innovative solutions to complex problems. Possesses strong communication skills, a keen eye for detail, and the ability to lead a team."

WORK EXPERIENCE

May 2023 - Present

Opebi, Lagos, Nigeria.

PRMP Digital Limited

Web Developer & Tech lead

- Employed advanced techniques to optimize website performance, resulting in an average speed increase of 60%, contributing to a more engaging browsing experience.
- Collaborated seamlessly with Designers and UI/UX developers to craft purposeful and user-centric websites tailored to specific target audiences.
- Pioneered the integration of Google Analytics across all websites, meticulously tracking website traffic, performance metrics, and user behavior.
- Assumed the role of overseeing the comprehensive hosting services, encompassing domain registration, transfers, and hosting operations.

January 2023 - May 2023

Lagos, Nigeria.

Transform Africa Limited

Front-end Software Developer (Contract)

- Constructed and deployed responsive, cross-browser compatible web applications using React Library, HTML, CSS, and JavaScript, resulting in a 30% increase in user engagement and satisfaction.
- Collaborated with UI/UX designers and back-end developers to build scalable, modular, and efficient front-end systems and optimized web pages for speed and performance.
- Converted client's older website versions built with limited frameworks, such as Webflow, to a more dynamic and scalable version with React.
- Utilized modern front-end frameworks and libraries such as React Js, React Tsx, and Vue.js to develop user-friendly and visually appealing web applications for multiple devices, including desktop, tablet, and mobile.
- Maintained and optimized existing code bases and performed regular code refactoring to ensure high performance, scalability, and maintainability.

August 2019 - March 2022

Lagos, Nigeria.

Web Developer

Freelancer

- Created portfolio website to help showcase and display github repositories with links to each relevant project sites
- Designed, developed and deployed web applications with attractive user interfaces that were both appealing but yet effective.
- Created well-responsive and functional websites both with Wordpress and Javascript frameworks.
- Demonstrated ability to work independently and collaboratively, completing projects on time and within budget.

March 2022 - January 2023

OutBase Limited

Administrative Assistant (NYSC)

Gbagada, Lagos, Nigeria

- Interacted and handled welcome dialogues with company's guest while awaiting the arrival of senior personals.
- Produced and edited reports, presentations, and other documents, utilizing software such as Microsoft Office and others, resulting in clear, accurate, and visually appealing materials.
- Responded to and directed inquiries from clients, vendors, and team members, providing prompt and professional customer service and maintaining positive business relationships.
- Coordinated and scheduled meetings and appointments for executives and other team members, resulting in streamlined operations and efficient use of time.
